CHAPTER II

LITERATURE REVIEW

This chapter discusses the literature related to the study, including the definition of analysis, slang words , and stand-up comedy.

A. Analysis

1. Definition of Analysis

Analysis is a thinking activity to decompose a whole into small components so that it can recognize the signs of components, the relationship of each component, and the function of each component in an integrated whole. According to analysis is the breakdown of a subject into its various parts and the study of the parts themselves, as well as the relationships between the parts for gain a proper understanding and understanding of the overall meaning¹³. Analysis is solving or decomposing a unit into various smallest units. Moreover, Shapiro stated that analysis is investigation of an event writing, deed, etc, know the real situation cause, cause, sitting the case¹⁴. It is means analysis or analysis is a effort to observe in detail something or object in a certain way describe the components of its composition to be studied, analysis also break or decompose a unit into various units that smallest.

According to Gibbons stated that the “ analysis is the activity of thinking to reduce a whole to components, their relationship to each other and have their

respective functions in an integrated whole”¹⁵. It means, analysis namely an activity carried out in detail such as, parsing, distinguish, choose something to be regrouped according to certain criteria and then look for the relationship and then interpret the meaning.

2. Characteristics of Analysis

In the analysis also has several characteristics including the following:

- a. Objective, the term objective has the meaning of a without being influenced by personal opinions or views. Objective in the analysis means in the research process, the researcher describe and describe the data obtained honest and true.
- b. Systematic, systematic means in the research process carried out must be coherent according to existing analytical theory. Coherent process here will give results that are in accordance with the formulated problem previously, because of the relationship between variables, categories, and theory used.
- c. Manifest Content, analysis is used to examine the content that appears in a content and results the end achieved can be something subjective.

¹⁵ Gibbons, and Garrity. "Definition of analysis." *The Journal of English* 53.2018,p. 27.35.

Burr Stand-up comedy, in addition, there are also objects in the analysis, namely three film titles in Bill Burr Stand-up comedy. , then the results will be analyzed in the form of a summary.

3. Functional of Analysis

In addition to the characteristics of the analysis, it also has several functions, namely:

- a. Analysis serves to break down something into small components whose relationships are known. Then the description of these components can be more easily understood, both for each part and as a whole.
- b. The analysis aims to gain a more detailed understanding of a matter. This understanding can later be explained to the public. So that the public gets useful information from the analysis.
- c. Analysis also has a function and purpose to determine decisions. What is meant in this case is decision making based on conjectures, theories, or predictions from something that has previously been understood¹⁷.

Based on the definition above, it can be concluded that the analysis is thinking activity to break down a subject into parts or components so that the characteristics or signs of each part can be known, then relationship to each other and the function of each part of the whole. analysis is also an activity carried out in detail such as, parsing, distinguish, choose something to be regrouped

according to certain criteria and then look for the relationship and then interpret the meaning.

B. Slang Words

1. Definition of Slang Words

Almost all people use slang, it is because most people are individuals who desire uniqueness, it stands to reason that slang has been existence for as long as language has been in existence. Anderson stated that slang is often considered to be had language usage and the decay of language, rather than a necessary change¹⁸. Besides, Slang is the new vocabulary that people in the social group develop that is not considered common in the dialect or language of the speaker. Slang is a very informal sort of language used intimately by individuals who know each other. According to Mish mentions, "Slang is an informal nonstandard vocabulary composed typically of coinages, arbitrarily changed words, and extravagant, forced, or facetious figures of speech"¹⁹. It is means that slang is included in non-standard language as the sort of words and expressions which anyone might use in conversation or a letter, but which is not used in a speech or formal essay.

Moreover, slang was not originally a label for individual words. Slang is the poetry of everyday life. Slang, at its worst, it is stupidly coarse and provocative. Burdova , stated that "Slang words and expressions are characterized

¹⁸ Anderson and Kharechko, "Principles of definition of slang and its use in English." New York : 2016,p.18-23.

¹⁹ Reves, Mish . "What is Slang?: A Survey of Opinion." *American Speech* 1.4 2019,p.21.

by a high degree of informality, familiarity, vocabulary richness. They are realized by a specific group of people whose members are connected with some particular link, such as territory (Californian), age (teenagers), subculture (students), and mainly occur in the spoken form of the language”²⁰. It means Slang is informal the use of English words or phrases and commonly used in speech between people from the same social group or who work together, it is not suitable for formal contexts and is often not in use for long.

In addition, slang words is a language variation which was very popular among young people. It happened because some factors such as social prestige and society. The example of slang word that often use by young people are guys, dude, bro, buddy, WTF, etc. Besides, there are four identifying criteria’s for slang according to Lighter as follow:²¹

- a. Its presence will markedly lower, at least for the moment, the dignity of formal or serious speech or writing.
- b. Its use implies the user’s familiarity either with the referent or with that less status full or less responsible class of people who have such familiarity and use the term.
- c. It is a tabooed term in ordinary discourse with persons of higher social status or greater responsibility.
- d. It is used in place of the well-known conventional synonym, especially in order (a) to protect the user from the discomfort caused by the conventional item or (b) to protect the user from the discomfort or annoyance of further elaboration.

²¹ Lighte Fasola. *"Slang and Its history."* Pragamon: Language, 2017, p.11.

From the statements above, the writer concluded that the meaning of slang is very informal word or phrase or it can be a new words or up to date word that use in informal situation. The example of slang word are jerk, nerd, guys, dude, break a leg, in the same boat, wanna, tryna, hafta, and so on. Slang words are also words that are used in everyday communication informally.

2. Types of Slang

In discussing slang, surely we have to know about the types of slang first. There are many types of slang that we can discuss. People can find the types of slang themselves in some books, especially in slang dictionaries. Based on Yule there are several type of slang word namely²²:

a. Coinage

Coinage is the invention of totally new words, which are usually invented in the names of company's product. In this case typical of process of coinage usually adopts the brand names as common words. The example are:

1. Aspirin: headache medicine
2. Kleenex: tissue
3. Nylon: Cloth

b. Borrowing

Borrowing is the talking over of words from other language. Though its history, the English language has adopted a vast number of word from other language. Other language, borrow terms from English, as in the Japanese use of suupua (supermarket). A special type of borrowing is describe as Joan translation or calqued.

²² Yule and Saputra.. "An Analysis Of Slang Words Used By Instagram Account Plesbol" E-Journal of English Language and Literature. 2018, Volume 8 No. 3 p.123.

c. Fresh and Creative

It means that slang word has new vocabularies in order to describe something in informal situation. For example the word “mom” is used to address a woman, especially the elder one. The other example of fresh and creative types are dude, guys, bro, sist, etc.

d. Flippant

It means that slang word consists of two words or more which does not have correlation with the denotative meaning. For example, break a leg which means good luck for an actor. Then, in the same boat which means that someone in the same problem.

e. Imitative

Imitative means that the slang word imitating or derived from the Standard English word: using the Standard English words in different meaning or combining two different words. The example is gonna. This is the slang word that derived from the phrase words “going to”. The slang word "gonna" is commonly used by almost all of the people in the world.

f. Clipping

It means that slang word comes from deletion of some part of longer word becomes a shorter form in the same meaning. For example, “till” refers to “until”.

3. The functions of Slang

There are some functions of slang according to Matiello, as follow:²³

1. Group and Subject-Restriction

Group and subject restriction go hand in hand, since speakers who stick to a specific group certainly share the other members’ interests, concerns,

²³ Dickins James., *Associative Meaning and Scalar Implicative*, (University of Leeds,2016), p.10.

values, interests and habits which assume similar conversational topics and related areas for discussion.

2. Secrecy and Privacy

Secret slang is usually used by peculiar to criminal and drug dealers in their surreptitious traffic. Marginal or isolated subgroups in society and young drug addicts tend to use secret slang to lessen the potential intrusion of non-users or to hide confidential information from public or parental authority. At the same time, secret slang can safeguard secret talks from being decoded by outsiders.

3. Informality and Debasement

Speakers use slang language to break with the neutral standard language and to minimize the level of discourse to familiar or low speech. Some people use slang to ease social exchanges and induce friendliness and to express their closeness and equality.

4. Playfulness and Humor

People use slang and find that a slang word is funny. Moreover, a slang word may sounds humorous when it is felt outdated. As a result, people who continue using it may appear ridiculous.

5. Freshness and Novelty

Most of teenagers and young people use slang language in their daily activity. They use it because they want to be up-to-date and innovative their speech. Young people are more creative, and they try to find new expressions to show that they are fashionable. However, often people may

not be able to understand or catch the meaning of modern slang language because of its freshness.

6. Desire to Impress and Faddishness

To impress the hearer, some people use slang words because of their faddishness. Many other unconventional slang words can strike the hearer because of their eccentric character and figurative sense. A word is faddish when it collocates with unpleasant or intensifying adjectives, and it is not necessarily an insulting bad word.

For example:

- a. It is so damn good! (It is very good.)
- b. Your dress is fuckin“ beautiful! (Your dress is so beautiful.)
- c. Those boys are handsome as fuck. (Those boys are very handsome.)

C. Stand-up Comedy

1. Definition of Stand-up Comedy

Stand Up Comedy is a form of comedy or comedic art that presented in a monologue to the audience. Usually this is done live and comedians will do a one man show. Even though it's called Stand Up Comedy, comedians don't always stand up in delivering their comedy. Exist some comedians do it by sitting in a chair just like people who is telling a story. According to Pandji “Stand Up Comedy is a comedy genre, comedians perform alone in front of an audience, and speak directly to them with bring funny materials that invite laughter, the name of the perpetrator Stand Up Comedy is a comic, stand up comedian or just Stand

Up”²⁴. Moreover, Stand up Comedy means “stand” alone on the stage called open mic to tell monologue joke²⁵. It means Stand up Comedy is another art joke which is the comedian called *comic* perform on the stage called *open mic*. The comic not only “stand” but also sit or doing many gestures when they open mic. The material of the comic talks about experience, observation, and other problems around or in themselves. Their performance are usually in campus, cafe, and other places.

Eventually, “Stand Up Comedy is the part of performance art. You have to perform it in order to learn .It means the place where comic learns and shares give influence to their open mic. Besides, Stand up comedy material in the form of a monologue is the result of observations ,anxiety, as well as the opinion of a comedian wrapped in comedy. This thing what makes this type of comedy is called “stand up” comedy, where someone can express his opinion freely on something in a way that entertaining, and not referring to comics telling jokes with how to stand.

Based on the statement above, it can concluded Stand-up comedy is a single comedy or comedy, this comedy art is a genre of comedic profession in which the comedian performs his jokes on stage alone, by means of a monologue on a topic.

2. The History of Stand-up Comedy in USA

Comedy is the huge industry in USA. There are many actors in Hollywood work a comedian before they worked an actor. Such as Robbin Williams, Jerry Seinfeld, David Letterman, Woody Allen, and Jim Carrey²⁶. The history of Stand-up Comedy began at 1800 in USA. First time, the show was in theatre. The theatre was named *The Minstrel Show* that performed by Thomas Darmouth “Daddy” Rice. *The Minstrel Show* started the show before the 12USA of Civil War. The comedy was simple but it got response from the audiences who were basically the aristocrat society. This show was racist, such as the comic changed the color of his face with black color for mocking the American that has black skin. There was no mic this year. Finally, the comic performed with “Slapstick” or common called by “Physical Joke”. This way still survived until 20th century.

Furthermore, *The Minstrel Show*, the first segment opened with musical theatre and the last segment was done with the comedy show. The show called Olio that was presented by The Endman. In every show, they speech to critic or comment the political life in USA or the phenomenon in the daily life. From here, the Stand-up Comedy life just began. In 1959, there was a show called *The Steve Allen Show* that presented comic, Lenny Bruce. There was comic inspired by Lenny Bruce, such as George Carlin. There are many Hollywood actors that started the carrier as a comedian, such as Woody Allen, Chris Rock, Rowan

²⁶ Jhonston, and Melissa “*The History of Stand -up Comedy in USA*”Universitas :Alabama, 2016.p.90.

Atkinson, and Jim Carrey (suc.metrotvnews.com). Stand-up Comedy has existed long time, because the media was television and radio but it was expensive to be had by society at that time. In this case, the comedy was only showed in theatre which was only watched by the aristocrat society.
